* Not all guarantors are reported for private-sector authorizations.

** The following reasons were identified as the primary purpose for seeking Ex-Im Bank support:

1. To assume commercial or political risk that exporter and/or private financial institutions are unwilling or unable to undertake.
2. To overcome maturity or other limitations in private-sector export financing.
3. To meet competition from a foreign, officially sponsored, export-credit agency.

Beginning in FY 2013, in accordance with 12 U.S.C. Section 635g(h) as amended May 2012, Ex-Im Bank will separately report reasons 1 and 2.
